DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Rothbarth et al (US Patent 6,074,269).

Rothbarth et al teaches in the figures each of the limitations of the claims including cables (5; it should be noted the Examiner considers the means 5 of Rothbarth et al to meet the Webster definition cable, "something resembling or fashioned like a cable") and the track line defining a helicoidal path with an oval plane (fig. 10 and 12).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rothbarth teaches a kinetic toy.
